

Software Release Notes

Product/Project: Tamalak Real Estate Application

Release Version No.: 1.1

Release Date: January 9, 2026

Description:

This release includes the second version of the Tamalak Real Estate Application - a web-based platform for property buying, renting, and selling. The platform supports multiple user roles (Users, Developers, Agents, Administrators) and has been tested using Katalon Studio v10.4.3 automated testing with 142 test cases achieving 84.51% pass rate.

Features:

1. User Authentication - Login, Registration, Password Reset, Session Management
 2. Admin Dashboard - User, Property, Review, and Filter Management
 3. Agent Management - Create, View, Update, Delete Agent Profiles
 4. User Profile Management - View and Edit Profile
 5. Navigation System - Main Menu, User Menu, Authentication Navigation
 6. Notification System - View, Manage, Event-triggered Notifications
 7. Property Service - Create, Browse, Search, Filter Properties
 8. Developer Properties - Project and Property Management
 9. Review System - Create, View, Delete Reviews with Star Ratings
-

Test Summary:

- Total Test Cases: 142
- Executed: 142 (100%)
- Passed: 120 (84.51%)

- Failed: 22 (15.49%)
 - Defects Found: 22
-

Improvements

- **New Microservice Architecture**
- **Better Notification System**
- **Developer Properties**
- **Reset Password Functionality**
- **New CRUDs in Admin Dashboard**

Improvements (for future v1.2):

- **Fix critical password reset functionality**
- **Improve session persistence**
- **Fix admin filter management operations**
- **Improve validation on registration forms**

Known Issues:

1. DEF-2026-010 (Critical): Password reset with valid token not working
2. DEF-2026-001 (High): Admin Property Edit fails to save changes
3. DEF-2026-003 (High): Property status change operation fails
4. DEF-2026-004 (High): Filter edit modal throws error on save
5. DEF-2026-005 (High): Filter deletion operation encounters error
6. DEF-2026-009 (High): Invalid token error handling fails
7. DEF-2026-015 (High): User session not persisting after page refresh
8. DEF-2026-016 (High): Password reset email not being sent
9. DEF-2026-018 (High): Project update with valid data fails
10. DEF-2026-022 (High): Delete developer property encounters error
11. DEF-2026-002 (Medium): Empty title validation not working
12. DEF-2026-006 (Medium): Cancel delete filter throws error
13. DEF-2026-007 (Medium): Toggle filter status encounters error
14. DEF-2026-008 (Medium): Agent detail page incomplete display

- 15.DEF-2026-011 (Medium): User role not persisting after registration
- 16.DEF-2026-013 (Medium): Weak password validation bypassed
- 17.DEF-2026-017 (Medium): Get project by invalid ID error handling
- 18.DEF-2026-019 (Medium): Notification not triggered on project creation
- 19.DEF-2026-012 (Low): Max password length validation not enforced
- 20.DEF-2026-014 (Low): Back button after login redirects to login page
- 21.DEF-2026-020 (Low): Active project count not updating correctly
- 22.DEF-2026-021 (Low): Developer count not incrementing after signup
